On December 15th, 2021, ROBLOX announced the end of the open beta for their new trading system. The company removed the ability to trade in-game currency among users and limited users' ability to purchase system currency from outside sources while adding even more security features by requiring cards or other forms of identification before buying virtual currency. The reason for the change was to prevent users from spending too much virtual currency on outside purchases of no value to the user. The system was a success, reducing the rate of fraud.[25]

When they are in a group with someone who they hate and they click the chat head and they try to type something and it doesn't show up. I know that there should be a way for them to see what they were typing but there is not. That's the only thing that bugs me about this bug because it makes people mad. If you want these bugs or glitches fixed or changed please comment down below.

On September 5th 2021, ROBLOX targeted a large amount of its users by adding in-game ads on most games for free. Players would be given an ad in the bottom right corner of their screen with the option of clicking it to see more games. This is very similar to how Facebook and Google ads work, however, the Roblox ads cannot be clicked on and are only meant as a distraction. Users would need to leave the game before seeing the ad again or wait until they lose interest in playing any other game. The new system was rolled out in large parts making users question ROBLOX's integrity as a company.
