I have attempted to make a list of all the free Roblox code sites and codes I know of. You should be wary when using these codes, as some do not work anymore or may lead to viruses/malware on your computer. I've also made a list of which sites are safe and which sites are unsafe for you to visit. Please be cautious and do not enter any codes you have found in a comment on Youtube, on Reddit, or anywhere else. Always make sure to read the comments of the videos and follow all instructions before using them.

There is a rare item that can be found in some games called "the orb" which is a blue orb looking like thing. It comes from a sound that the game creator puts in the game and if you get it, it can be used as an attack to kill the enemy with or to do other stuff like make you invincible. The orb is very rare to get so it is not really good to use if you do not want to waste the item, but I think that this item should be more common, so we don't have to spend too many robux on it.

The more popular games have prices ranging from \$10-\$25 and some people think that it is way too expensive to pay for a game, especially if it doesn't require any physical hardware or extra equipment. Some also specify that when they see a custom hat being sold for \$25 and think it's ridiculous because hats aren't even digital assets and are an accessory.

I personally think that the vast majority of Roblox games are for children. There is only a few games that are suitable for adults which were developed in recent years, but there are also a large number of games that have been around for years, and it is still very popular. I don't think there is anyone who has played this game since they were a child, so it's not like people will stop playing because they're unhappy with the newer games.

ROBLOX first came out in September 2001 when released the first version of their game Roblox Studio (similar to Scratch). This was the original creator of ROBLOX and was developed by Jason "Akile" Akilecz (JAMASOF) from October 19 to November 5. This is the first fully 3D program for ROBLOX. The original name was "Roblox", but it was changed due to a copyright lawsuit. The name was changed to "FunRoblox", and in 2001 the "Fun" part was dropped to make it simply Roblox.

The Roblox UI has a webcam in the bottom right corner, and many players have found that other players have used this to take pictures of them or record them without permission. This was also reported on an academic blog site.

This is not an open world game, each world contains its own mini-map that shows the player where he or she can go and where they cannot go. No one will know you're there if you stay hidden. This means that if you don't want someone to find something in your inventory, you have a location to hide it.
